**(April 2024 - October 2024)**

Front-End Web Development

## WORK EXPERIENCE

---

### Freelance Front-End Developer

*Odole Abayomi* — Remote (October 2024 - Present)

- Developed and deployed user interfaces using React and Tailwind CSS for client websites.
- Implemented responsive layouts and ensured cross-browser compatibility.
- Collaborated with back-end developers to integrate REST APIs and optimize front-end performance.

## PROJECT

---

### Study Companion — [GitHub Link](#)

Developed the front end of a web application designed to support learners from various categories in their study process. The app allows users to manage their study sessions, create schedules, and track their learning progress.

- Utilized **React** for building dynamic, interactive user interfaces.
- Styled the application with **Tailwind CSS** for a responsive, modern design.
- Implemented reusable components for scalability and easy maintenance.
- Focused on enhancing user experience with intuitive navigation and accessibility features.
